

# Quick Start Guide: Launching a Pathway to Debt-Free Degrees

## What We Offer

A flat-rate monthly education benefit that allows your team members to earn accredited college degrees with no loans and no reimbursement process. Team members are only responsible for the cost of books and administrative fees.

## What You Need to Do

- **STEP 1:** Identify interested team members through individual conversations or by polling your team. Ficus Education offers a complimentary custom survey to help you gauge interest and determine if education benefits are a good fit.
- **STEP 2:** Subscribe to employer-sponsored education benefits. Our team will help you choose a subscription term that aligns with your goals and budget.
- **STEP 3:** Launch with confidence using resources provided including flyers, team meeting scripts, videos, and communication templates to make rollout simple and effective.

## Key Upcoming Dates

- **July 16:** Application Deadline for Fall Session 1
- **September 3:** Application Deadline for Fall Session 2

*We recommend allowing 4–6 weeks to ask questions and complete the application process. To ensure your team members are eligible for the Fall sessions, now is the ideal time to launch.*

## Gauge Your Team's Interest

Curious if your team is interested in debt-free degrees? Scan the QR code to request your free custom interest survey.
